EXPERIENCE

Software Development Intern

Remote | Jun 2026 – Present

Jupiter Wealth

- Developing a web-based CRM platform that enables managers to monitor Relationship Manager (RM) interactions, portfolio reviews, client meetings, and communication workflows.
- Designing a four-tier Role-Based Access Control (RBAC) system with hierarchical data access and authorization for Admin, Cluster Head, Branch Head, and Relationship Manager roles.
- Designing the PostgreSQL database schema and REST APIs for bulk and referral lead management, incorporating duplicate detection and assignment tracking.
- Building lead lifecycle workflows, management dashboards, and a monthly approval-based data locking mechanism; the application is currently under active development.

PROJECTS

AgriForge (KrishiMitra) | *AI/ML, Smart Agriculture, Computer Vision*

2025 – Present

- Designed an AI-powered agricultural assistant supporting multilingual farmer interactions through voice and text across 10+ Indian languages.
- Integrated an EfficientNet-based computer vision model for crop disease detection using leaf imagery.
- Secured Rs. 2.43 Lakh research funding under the Student Startup & Innovation Policy (SSIP), Government of Gujarat.

Urban Intel AI | *AI/ML, Predictive Analytics, Python*

2026

- Developed a hybrid AI system using Random Forest models to forecast urban risks including traffic congestion, water scarcity, and public health hazards.
- Integrated a local TinyLlama model to generate real-time policy recommendations without relying on external APIs, securing 1st Runner-Up (2nd among 180+ teams) at Ingenius Hackathon 7.0.

Eunoia Homoeopathy | *Web Development, UI/UX, Hosting & Deployment*

2026

- Shipped and deployed a live production website for a homoeopathy clinic, owning UI/UX design, domain setup, hosting, and end-to-end deployment against real client requirements.

Mumbai Pulse (CityFage) | *AI/ML, Geospatial Analysis, Python*

2025

- Engineered an AI system leveraging NASA Earth observation datasets to monitor air quality, urban heat, and environmental risks across Mumbai, earning 1st place at the NASA Space Apps Challenge 2025.

LEADERSHIP

Web Team Lead – Code Vimarsh Club, MSU Baroda

- Lead the web team in developing club projects, coordinating contributors, and supporting technical initiatives across events.

AI/ML Team Lead – Neuralize Club, MSU Baroda

- Lead AI/ML initiatives by organizing workshops, mentoring peers, and supporting hackathon activities within the university community.
